University theses and dissertations provide a wealth of information not readily available to many research workers, as often titles have not been listed, nor individual works abstracted in current publications of abstracts.

This "Cumulative list of theses and dissertations on Canadian Geography to 1963" was started many years ago by Miss J.I. Matheson, former librarian of the Geographical Branch, now retired. It was completed under the direction of Mr. W.C. Meyer, present librarian. It does not presume to be complete in every respect, but it is hoped that it will prove a valuable tool in research on Canadian geography. In most cases, theses and dissertations may be borrowed from the university concerned on inter-library loan or purchased on microfilm.

The Geographical Branch wishes to express appreciation to the many university Departments of Geography who have assisted in the project.

J.D. Ives,
Director,
Geographical Branch.

Les thèses et les dissertations universitaires sont de riches sources de renseignements qui ne sont pas toujours accessibles à de nombreux chercheurs, soit parce que les titres n'ont pas été catalogués ou encore parce qu'aucun résumé de ces travaux n'a paru dans les publications courantes à cet effet.

Cette "Liste des thèses et des dissertations sur la géographie du Canada jusqu'à 1963" a été commencée il y a plusieurs années par mademoiselle J.I. Matheson, alors bibliothécaire à la Direction de la géographie, maintenant à sa retraite. Le travail a été complété sous la direction du bibliothécaire actuel, monsieur W.C. Meyer. Cette liste n'a pas la prétention d'être complète sous tous les rapports, mais nous espérons qu'elle s'avérera d'une grande utilité dans les travaux de recherche sur la géographie du Canada. Dans la plupart des cas, les thèses et les dissertations peuvent être achetées sur microfilm.

La Direction de la géographie désire exprimer toute sa gratitude aux départements de géographie des nombreuses universités qui ont contribué à ce travail.

J.D. Ives,
Directeur,
Direction de la géographie.
